COVER LETTER

My name is Justin Scholtz, and web development has been a passion of mine ever since 2016 when I attended an intro to web development at a company called Rlabs, we did a month-long course where we were introduced to HTML and CSS. What made me realize it was passion was the amount of times I could have given up but didn't, I still had that fire in me to succeed at the challenges and become a front end developer. My journey consists of me joining a bootcamp and self-studying, over my journey, I've reached a point where I'm very comfortable with HTML and CSS, but I'm still learning the ropes of JavaScript, I would love to then grow my VUE JS skills as my JS framework to broaden my skill set. I now feel like I'm ready to take on the next step in my journey and find Employment as a front-end developer, Life Choices prepared me well for the next stage of my life, so I'm ready for anything and everything.

WORK EXPERIENCE

MARCH 2022 / NOVEMBER 2022

Systems Engineer / Business Technology

Cape Town

- took notes during most of our morning meetings
- assist users with hardware and software issues
- worked with Microsoft Admin Centre
- created user and shared mailboxes on exchange
- did daily check ups on backups
- worked with AD server (creating users, resetting passwords, blocking user accounts)
- worked with a ticketing system where I would get various system tickets from end users
- worked a lot with email so I know how to communicate with customers (feedback)
- did site visits where I would go to various clients to check if any users were having technical issues
- set up teams meetings for clients
- Repaired laptops and reinstalled windows/ubuntu or dual boot.
- worked with N-able and Screen connect to assist users remotely

Junior Sharepoint Consultant / First Technology

Cape Town

- created power apps for clients
 - used power automates along with power apps and Sharepoint
 - worked with Sharepoint lists and sites
-
